POSITIONS OF RESPONSIBILITY

- Conducted Android classes under Cybros (one of the biggest Tech clubs of our college)
- Head Boy in School
  Project Leader of a science project selected for nationals (organized by Department Of Science And Technology)

PROJECTS

Chat

Jan 2017 - Apr 2017

https://github.com/Manu2go/Chat

Developed an android app for group chatting. Using the app you can chat with anybody who is already registered in the app. The chat box can send images,videos as well as audios.Moreover, it can show the number of unread messages in one login session.

My Dermat

Dec 2016 - Feb 2017

https://play.google.com/store/apps/details?id=bsr.skincare&hl=en

MyDermat is an App in which you just have to click the image of the infected area and send it to our experts. The best opinion from the experienced Doctors will be received you on your mobile phone.

MyNotes

Oct 2016 - Jan 2017

https://github.com/Manu2go/MyNotes

Developed an android app named 'MyNotes' for note making. Since it has a user login system and all the notes are stored on web server, therefore a person can view his notes on any mobile using his username and password .

Chaipeeo

Jan 2017 - Present

https://github.com/Manu2go/Chaipeeo

Developing an app named "Chaipeeo" for online selling of Tea shop products(like coffee,ice tea,green tea etc.). The app is almost complete. Only payment Gateway Integration is left.
